WHOLENESS

At Loma Linda University Health we are committed to creating a healthier community of individuals who embrace the value of living well and are empowered to manage their own whole person health. That is why this year we are establishing new health plan options designed to provide each person the opportunity to maintain or improve their own well-being.

Health Plan Options:

With the new plan year you will be offered the option of participating in one of two plans.

Wholeness Plan – an enhanced version of our current medical plan. To maintain eligibility for this plan you and your covered spouse must complete an online health risk assessment (HRA), biometric screening and as appropriate, accept an invitation to personalized health coaching or care management services. Information collected through the health risk assessment and biometric screening will not be included in the LLUH medical record. Any personal information or medical screening results provided by an employee will never be disclosed to another individual.

Base Plan – This plan will include higher co-payments and an increase in the amount of your monthly medical plan contribution.

**As we begin the new year all employees will automatically continue their existing medical and dental coverage. If an employee does not want to add or delete coverage for a family member and wants to maintain coverage in the Wholeness Plan, no action is necessary.*

Plan Changes:

For 2014, full time employee contributions under the Wholeness Plan will remain unchanged but the monthly employer contribution for medical coverage will be increased by \$30.00. Part time rates will increase by \$15.00 a month.

The Wholeness Plan will include the following benefit enhancements:

- No pre-existing condition exclusions for anyone who enrolls
- 100% coverage for preventative services (annual physicals, vaccines, well-baby checkups, birth control, etc.)
- New limited coverage for in vitro fertilization and single embryo transfers
- New limited coverage for bariatric surgery for qualified patients

These plans are administrated by the Department of Risk Management.

For additional information please contact Risk Management at 909-651-4010 or email riskmanagementhealthplans@llu.edu.
