WOMEN'S HEALTH AND CANCER RIGHTS

If you have had or are going to have a mastectomy, you may be entitled to certain benefits under the Women's Health and Cancer Rights Act of 1998 (WHCRA). For individuals receiving mastectomy-related benefits, coverage will be provided in a manner determined in consultation with the attending physician and the patient for:

- All stages of reconstruction of the breast on which the mastectomy was performed;
- Surgery and reconstruction of the other breast to produce a symmetrical appearance;
- Prosthesis; and
- Treatment of physical complications of the mastectomy; including lymphedema.

These benefits will be provided subject to the same coverage applicable to other medical and surgical benefits provided under your employee health plan. Therefore, there are no deductibles and no employee co-payments for surgical or diagnostic services and co-payment for any inpatient preferred provider services. Surgery and medical services provided by non-preferred providers are covered at non-preferred provider rates with a 75% co-insurance requirement.

If you would like more information regarding WHCRA or if you have any other questions regarding health Plan eligibility or coverage, please contact the Department of Risk Management at (909) 6514010.
