## Report of Independent Auditors

The Board of Trustees Loma Linda University and LLUH-SB, Inc.

#### **Opinion**

We have audited the accompanying combined financial statements of Loma Linda University and LLUH-SB, Inc. (collectively LLU), which comprise the combined statements of financial position as of June 30, 2023 and 2022, and the related combined statements of activities, and cash flows for the years then ended, and the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of LLU at June 30, 2023 and 2022, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of LLU and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the LLU's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether
  due to fraud or error, and design and perform audit procedures responsive to those risks.
   Such procedures include examining, on a test basis, evidence regarding the amounts and
  disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the LLU's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the
  aggregate, that raise substantial doubt about the LLU's ability to continue as a going
  concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Supplementary Schedules**

Our audit was conducted for the purpose of forming an opinion on the combined financial statements as a whole. The accompanying combining statement of financial position and combining statement of activities of Loma Linda University and LLUH-SB, Inc. and the financial responsibility supplemental schedule required by the United States Department of Education are presented for purposes of additional analysis and are not a required part of the combined financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the combined financial statements. The information has been subjected to the auditing procedures applied in the audit of the combined financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined financial statements or to the combined financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

#### Notes to Combined Financial Statements

June 30, 2023

#### 1. Nature of Organization

Loma Linda University (LLU) is a nonprofit Seventh-day Adventist educational health-sciences institution with approximately 4,300 students located in Southern California. LLU's academic structure is organized into eight schools, one college, and the Faculty of Graduate Studies. More than 120 programs are offered by the schools of Allied Health Professions, Behavioral Health, Dentistry, Medicine, Nursing, Pharmacy, Public Health, Religion, and the San Manuel Gateway College. Programs offered range from certificates of completion and associate in science degrees to doctor of philosophy and professional doctoral degrees. Students from more than 80 countries around the world and virtually every state in the nation are represented in LLU's student body. LLU offers both on campus and distance education programs to meet diverse learning needs.

As its mission, LLU seeks to continue the teaching and healing ministry of Jesus Christ "to make man whole" by transforming lives through education, health care, and research. In harmony with LLU's heritage and global mission:

- Encourage personal and professional growth through integrated development of the intellectual, physical, social, and spiritual dimensions of each member of the university community and those LLU serves.
- Promote an environment that reflects and builds respect for the diversity of humanity as ordained by God.
- Serve a worldwide community by promoting healthful living, caring for the sick, and sharing the good news of God's unwavering love.

The activities of LLU are conducted within two major divisions for financial reporting purposes.

- a) Educational Division includes the operations and related activities of the academic functions.
- b) Foundation Division includes endowments, trust agreements, annuities, independent operations, and other non-academic activities.

### Notes to Combined Financial Statements (continued)

#### 1. Nature of Organization (continued)

LLUH-SB, Inc. (LLUH-SB) was incorporated on December 3, 2014 to deliver and maintain the land, buildings, and infrastructure necessary for the successful operation of a community clinic and educational facilities in San Bernardino, California. LLUH-SB is a wholly owned subsidiary of Loma Linda University Health (LLUH). LLU's intent is to financially support LLUH-SB to carry out its core objectives. Due to LLUH-SB's fiscal dependence on LLU, its financial statements are reported as a division of LLU's combined financial statements. Subsequent to June 30, 2023, LLUH-SB was liquidated, and the assets and liabilities were transferred to the Foundation division within LLU.

LLUH is a religious nonprofit corporation that serves as the sole member of LLU. Other corporations of which LLUH is the sole member include Loma Linda University Medical Center (LLUMC), Loma Linda University Children's Hospital, Loma Linda University Behavioral Medicine Center (LLUBMC), and LLUMC-Murrieta, each a religious nonprofit corporation. LLUH also serves as a member of Loma Linda University Health Care, a religious nonprofit corporation.

### 2. Summary of Significant Accounting Policies

### **Principles of Combination**

The accompanying combined financial statements include the accounts of LLU and LLUH-SB (collectively referred to as the University). All transactions between entities have been eliminated in the combined financial statements.

#### **Basis of Presentation**

To ensure compliance with restrictions placed on the resources available to the University, the University's accounts are maintained in accordance with the principles of fund accounting. This is the procedure by which resources are classified for accounting and reporting into funds established according to their nature and purpose. In the accompanying combined financial statements, funds that have similar characteristics are combined into two net asset categories: without donor restrictions and with donor restrictions.

Net assets without donor restrictions are not restricted by donors or the donor-imposed restrictions have expired.

### Notes to Combined Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

Net assets with donor restrictions are subject to stipulations imposed by donors and grantors. Some donor-imposed restrictions are satisfied either by the passage of time or when the purpose has been met by actions of the University. Other donor restrictions stipulate that the resources be maintained in perpetuity, but permit the University to use or expend part or all of the income derived from the donated assets for either specified or unspecified purposes and in accordance with the law.

#### **Revenue Recognition and Deferred Revenue**

Revenues from tuition and fees are recognized pro rata (on a straight-line basis) over a relevant period attended by the student of the applicable course or program, net of explicit price concessions such as scholarships, discounts, and waivers (student aid) and are displayed on the combined statements of activities in net tuition and fees. If a student withdraws from a course or program, the paid but unearned portion of the student's tuition may be subject to refunds. Refunds are calculated and paid in accordance with applicable federal, state, and University refund policies. Deferred revenue is the portion of payments received but not earned and is reflected as a liability on the accompanying combined statements of financial position. Performance obligations are satisfied by the University over the term that the student receives the benefit from these tuition and fees.

Contributions are included in gifts and subsidies on the combined statements of activities. These contributions include appropriations from the General Conference of Seventh-day Adventists, which are provided for unrestricted operating support. The revenue is recognized monthly throughout the fiscal period. See Note 16 – Related-Party Transactions.

Sponsored support is primarily federal, state, and private reimbursements that generally are allowable expenditures under nonexchange agreements. Nonexchange agreements are considered conditional, if the terms of the agreement include both a right of return/release of assets received and/or promised. Any funding received in advance of expenditure is recorded as a refundable advance. The University's performance obligation is satisfied when the related costs are incurred in accordance with the agreement. Consequently, revenue is recognized at the time expenses are incurred.

### Notes to Combined Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

Sales and service income includes revenue primarily from property rental, memberships, and sales of educational materials; food services; bookstore goods; printing services; and tickets. The University recognizes the property rental revenue monthly, based on the transaction price stated in the executed rental agreement. Memberships are available to students, related parties' employees, and the general public. The student membership is included in the published enrollment fee, which is administratively allocated to various student-related activities.

The nonstudent membership transaction price is the amount the University expects to be entitled to in exchange for the products provided (either published rates available on the University's websites or agreed-upon rates from related- and third-party payers) and is recognized monthly, based on the agreed-upon rates. Revenue generated from sales is recognized at a point in time.

Clinic and auxiliary income includes multiple revenue streams derived primarily from medical and dental services provided to the general public, and from the operation of the central utility plant (CUP) services, which are included on the combined statements of activities, and reported as net assets without donor restrictions. The transaction price of the clinic income and the performance obligation is recognized as revenue at the time that each procedure is performed. For treatment plans that are satisfied over a period of time, revenue is recognized accordingly over the corresponding time period. The CUP provides utility services, such as electricity and chilled water, to related parties and the University. The transaction price of the CUP income is allocated to the performance obligation on a dollar per unit of energy consumed basis. The period in which the University satisfies the performance obligation is the same period in which the revenue is recognized by billing upon usage.

Student loan interest and other include revenue related to financial aid programs and are primarily generated from interest earned. The performance obligation of the student loan funds occurs over the life of the loan. The University receives fixed monthly payments from students, with a portion of the payment attributable to interest (recorded as revenue) and the remaining portion of the payment as a reduction in loan principal. The performance obligations are laid out in the promissory note, and the transaction price is clearly identified in the promissory note.

#### **Cash and Cash Equivalents**

Cash and cash equivalents include amounts held in certificates of deposit and money market accounts with original maturities of three months or less, except that such instruments purchased with endowment, annuity, or life income assets are classified as investments.

### Notes to Combined Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

#### **Restricted Cash**

Restricted cash is the reserve amount for the project fund required by the bond agreement; see Note 9 – Debt. Certain proceeds of the serial bonds held by trustees are limited as to use in accordance with the requirements of the trust agreements. The project fund balance has been used as specified in the bond agreement. The restricted cash also included a reserve amount for LLUH-SB required by the debt agreement. As of June 30, 2022, the balance was \$300 thousand.

#### **Accounts Receivable**

Accounts receivable includes tuition receivable, nonstudent receivables (employee education notes, mortgage loans), and third-party receivables. Receivables are recognized only to the extent that the University has an unconditional right to consideration to which it is entitled in exchange for goods and services to students, nonstudents, and third parties. Such receivables are stated at the amount management expects to collect from outstanding balances on accounts. Collectability of accounts receivable is assessed periodically for changes in facts and circumstances. The allowance for doubtful accounts amounted to \$5.4 million and \$4.7 million at June 30, 2023 and 2022, respectively.

#### **Student Loans Receivable**

Student loans receivable consist of private donated and federal funds loaned to students. Donated funds are recorded in accordance with the restrictions set by the donors. Federal funds are recorded as federal student loan obligations on the combined statements of financial position. Balances are recorded to the provision for doubtful accounts based on the aging of the receivables and are written off when deemed uncollectible. The University follows federal guidelines for determining when student loans are delinquent or past due for both private donated and federal funds. The allowance for doubtful accounts amounted to \$700 thousand and \$1.3 million at June 30, 2023 and 2022, respectively.

### Notes to Combined Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

#### **Pledges Receivable**

Unconditional promises to give are recorded as receivables and gift revenues and require the University to distinguish between contributions received for each net asset category in accordance with donor-imposed restrictions. Contributions to be received after one year are discounted at an appropriate discount rate commensurate with the risks involved and recorded in their respective net asset categories. An allowance for uncollectible pledges receivable may be provided based upon management's judgment, including such factors as prior collection history, type of contribution, and nature of fundraising activity. The allowance for uncollectible pledges receivable amounted to \$393 thousand and \$550 thousand at June 30, 2023 and 2022, respectively.

#### **Inventories**

Inventories are valued at the lower of cost or market accounted for on a first-in, first-out basis and are substantially made up of finished goods. The inventories primarily consisted of supplies to be used for dental clinics, food services, housekeeping, property maintenance, and printing.

#### **Deferred Rent**

Deferred rent is the cumulative difference between the rental income or payments required by a lease agreement and the rental income or expense recognized on a straight-line basis, in which use or benefit is granted or derived from the leased property, expected to be recognized in income or expense, by the lessor or lessee, respectively.

#### **Net Investment in Direct Financing Lease**

At lease commencement, the University records an investment in direct financing leases equal to the total future lease rental payments and the estimated residual value of the leased equipment, less unearned lease income. The unearned lease income is the difference between the cost of the equipment plus initial direct costs capitalized and the total future lease rentals plus the estimated residual value of the leased equipment. Residual value is the estimated proceeds from the sale or re-lease of the asset at the end of the initial lease term. Amortization of unearned income is recognized using the interest method and is included in interest income on the combined statements of activities.

### Notes to Combined Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

#### **Property, Plant, and Equipment**

Plant facilities are stated at cost at the date of acquisition or at fair value at the date of donation in the case of gifts. Capital equipment is tangible personal property having a useful life of one year or more and an acquisition cost of \$5 thousand or more per unit. Land and buildings are always capitalized. Depreciation is computed using the straight-line method over the estimated useful life of each class of depreciable assets, as follows:

Land improvements	5–60 years
Buildings	10–60 years
Building improvements	5–30 years
Equipment	3–25 years

The costs and accumulated depreciation of assets sold or retired are removed from the accounts and the related gains and losses are included on the combined statements of activities as a component of depreciation expense. Assets are depreciated beginning in the next month following the acquisition date. Leasehold improvements are amortized over the lesser of their useful lives or the lives of the lease. Maintenance and repairs are charged to expense as incurred. Land and construction-in-progress are nondepreciable assets.

Asset retirement obligations include obligations associated with the retirement of long-lived assets. These liabilities are recorded at fair value when incurred and are capitalized by increasing the carrying amount of the associated long-lived asset. The fair value of the obligation is measured based on the present value of estimated future retirement costs. Asset retirement costs are depreciated on a straight-line basis through the estimated date of retirement. Subsequent to the initial recognition, period-to-period changes in the carrying amount of the liability are recorded due to the passage of time and revisions to either the timing or amount of the original estimated cash flows. Liabilities are released when the related obligations are settled. The asset retirement obligation amounted to \$3.2 million and \$3.1 million at June 30, 2023 and 2022, respectively, and is recorded in other liabilities on the combined statements of financial position.

### Notes to Combined Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

#### **Impairment of Long-Lived Assets**

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows (undiscounted and without interest) expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured at the amount by which the carrying amount of the assets exceeds the fair value, less selling costs. During the years ended June 30, 2023 and 2022, there were no significant events or changes in circumstances indicating that the carrying amount of long-lived assets may not be recoverable.

### **Annuity and Split-Interest Agreements**

Annuities are paid to individuals who have entered into annuity and split-interest agreements with the University. Standard annuity tables are used to estimate the present value of future payments due to annuitants based on the annuitant's age and gender, the frequency and amount of payment, and the principal amount of the annuity.

The University is the beneficiary in a number of split-interest arrangements with donors. Under these arrangements, the University controls donated assets and may share with the donor or the donor's designee income generated from those assets until such time as stated in the arrangement (usually upon the death of the donor or donor's designee), at which time the remaining assets are available for the University's use. When the University receives such assets, the fair value of the assets is recorded as irrevocable trust assets. Irrevocable trust assets have been recorded using the same investment valuation techniques as similar investments held by the University (see Note 5 – Investments, Irrevocable Trusts, and Fair Value Measurements). The University's policy is to record the contribution of these gifts in its combined financial statements as net assets with donor restrictions (at fair value) if the assets are controlled by the University as indicated by the donor. At the time of the gift, the University records contribution income and a liability for amounts payable to income beneficiaries using an actuarial calculation, adjusted annually. The estimated net present value of the payments to beneficiaries is recorded as liabilities due under annuity and split-interest agreements, and the estimated net present value of the payments that will be made to other remainderman trusts is also recorded as liabilities due under annuity and split-interest agreements. The annual payments to the beneficiaries are payable from the trust assets' investment earnings or, in some cases, to the extent that the amount is deficient, from principal. If the trust assets' investment earnings exceed the payments to the benefactor, such excess is added to the

### Notes to Combined Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

trust principal. The University uses mortality rates based on the IRS life expectancy table at an 8% discount rate. Irrevocable trust assets received, net of distributions, amounting to \$919 thousand and \$1.5 million for the years ended June 30, 2023 and 2022, respectively, are included in gifts and subsidies on the combined statements of activities. Increase in the value of annuities and split-interest agreements, amounting to \$3.2 million and \$430 thousand for the years ended June 30, 2023 and 2022, respectively, is included in unrealized gains on investments on the combined statements of activities.

### **Board and Administration Designated Net Assets**

The Board of Trustees and administration of the University have designated certain net assets without donor restrictions balances at June 30, 2023 and 2022 to be used for operating endowments, instruction, research, student aid, and other areas. Such assets are considered net assets without donor restrictions.

#### **Expiration of Donor-Imposed Restrictions**

The expiration of a donor-imposed restriction on net assets is recognized in the period in which the restriction expires and, at that time, the related resources are reclassified to net assets without donor restrictions. Restrictions expire when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both. Net assets are released from donor restrictions by incurring expenses satisfying the restricted purposes or by occurrence of events specified by the donors or by the change of restrictions specified by the donors.

Contributions of land, building, and equipment without donor stipulations concerning the use of such long-lived assets are reported in gifts and subsidies without donor restrictions. Contributions of cash or other assets to be used to acquire land, buildings, and equipment with such donor stipulations are reported in gifts and subsidies with donor restrictions. The restrictions are considered to be released at the time of acquisition of such long-lived assets. Contributions that are identified to support LLUH-SB's current period activities are recorded as without donor restrictions revenue and support.

#### **Fair Values of Financial Instruments**

The carrying value of the following financial instruments approximates their fair value: accounts receivable, net; student loans receivable, net; investments; and liabilities due under annuity and split-interest agreements.

### Notes to Combined Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

#### **Investments and Investment Income, net**

Pooled investments funds are generally held at fair value. Other investments are generally held at cost. In 2023, investment-related expenses of \$12.8 million are charged against investment income of \$16.4 million from net assets without donor restrictions and investment income of \$23.1 million from net assets with donor restrictions. These amounts are displayed on the combined statements of activities.

In 2022, investment-related expenses of \$11.9 million are charged against investment income of \$17.4 million from net assets without donor restrictions and investment income of \$39.4 million from net assets with donor restrictions. These amounts are displayed on the combined statements of activities.

#### Funds With Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or the Uniform Prudent Management of Institutional Funds Act (UPMIFA) requires the University to retain as a fund of perpetual duration. Deficiencies of \$101 thousand and \$56 thousand were reported in net assets with donor restrictions as of June 30, 2023 and 2022, respectively, because the market value of the assets is below cost.

#### Return Objectives and Risk Parameters

The University has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment, while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the University must hold in perpetuity or for donor-specified periods, as well as board-designated funds. Under these policies, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of the Standard & Poor's 500 Index, while assuming a moderate level of investment risk. The University expects its endowment funds, over time, to provide an average rate of return of approximately 7% annually. Actual returns in any given year may vary from this amount.

### Notes to Combined Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the University relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The University targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Spending Policy and How the Investment Objectives Relate to Spending Policy

The University has a policy of allowing for distributions of up to 5% of the average fair value of the permanently restricted endowments as of the previous three calendar year-ends preceding the fiscal year of distribution. In establishing this policy, the University considered the long-term expected return on its endowment, which it expects to grow at an average of 1% annually after distributions. This is consistent with the University's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth.

#### **Endowment**

The Board of Trustees of the University interprets UPMIFA to state that the University, in the absence of explicit donor stipulations to the contrary, may appropriate for expenditure or accumulate as much of an endowment fund as the University determines prudent for the uses, benefits, purposes, and duration for which the endowment fund is established. As a result of this interpretation, the University classifies as net assets with donor restrictions: (a) the value of gifts donated to the endowment, (b) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund, and (c) appreciation or depreciation in fair value of the related financial instrument in accordance with the original donor restriction. The remaining portion of the donor-restricted endowment fund is also classified in net assets with donor restrictions until those amounts are appropriated for expenditure by the University in a manner consistent with the standard of prudence prescribed by UPMIFA.

### Notes to Combined Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

In accordance with UPMIFA, the University considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The mission of the University and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effects of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the University
- (7) The investment policies of the University

#### **Fundraising and Advertising Activities**

The University has included fundraising and advertising costs in purchased services on the accompanying combined statements of activities. The University incurred \$5.1 million and \$5.0 million of fundraising costs, and \$477 thousand and \$227 thousand in advertising costs in the fiscal years ended June 30, 2023 and 2022, respectively.

#### **Concentration of Credit Risk**

The University maintains its cash accounts in financial institutions. Accounts at these institutions are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250 thousand. The amounts held in such accounts exceed the FDIC insurance amounts. The University performs ongoing evaluations of these institutions to limit its concentration risk exposure.

The University invests excess cash in various types of investments. Balances in the University's investment accounts exceed the Securities Investors Protection Corporation insured limit of up to \$500 thousand. The University has established guidelines relative to diversification and maturities that maximize safety and liquidity. These guidelines are periodically reviewed and modified to take advantage of trends in yields and interest rates.

## Notes to Combined Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

A substantial portion of tuition is paid through the students' participation in federally funded financial aid programs. Transfers of funds from the financial aid programs to the University are made in accordance with U.S. Department of Education (ED) requirements. The financial aid and assistance programs are subject to political and budgetary considerations. The University's administration of these programs is periodically reviewed by various regulatory agencies.

If the University were to lose its eligibility to participate in federal student financial aid programs, the students at the University would lose access to funds derived from those programs and would have to seek alternative sources of funds to pay their tuition and fees. Students obtain access to federal student financial aid through an ED prescribed application and eligibility certification process. Student financial aid funds are generally made available to students at prescribed intervals throughout their predetermined expected length of study. Students typically apply the funds received from federal financial aid programs to pay their tuition and fees.

Accounts receivable from students and patients are reported net of an allowance for doubtful accounts. Management regularly assesses the adequacy of the allowance by performing ongoing evaluations that include considering such factors as the economic environment and the financial condition of specific borrowers.

#### **Use of Estimates**

The preparation of combined financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the combined financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates. The University's significant accounting estimates include investment valuation, useful life of plant and equipment, allowances for uncollectible accounts for accounts receivable, student loans, and pledges receivable, trust liabilities and annuities payable, and the functional allocation of expenses.

### Notes to Combined Financial Statements (continued)

#### 2. Summary of Significant Accounting Policies (continued)

#### **Income Tax Status**

The IRS has ruled that LLU and LLUH-SB qualify under Section 501(c)(3) of the Internal Revenue Code (IRC) and are therefore not subject to income taxes for activities related to their exempt programs. Management is not aware of any event that would cause the University to be disqualified in operation. LLU had no unrecognized tax benefits at June 30, 2023 or 2022. The University files an exempt organization return and an applicable unrelated business income tax return in the U.S. federal jurisdiction and with the California Franchise Tax Board.

For the years ended June 30, 2023 and 2022, no provision for unrelated business income tax for LLUH-SB is required. LLUH-SB had no unrecognized tax benefits or liabilities at June 30, 2023 or 2022. LLUH-SB files an exempt organization return and an applicable unrelated business income tax return in the U.S. federal jurisdiction and with the California Franchise Tax Board.

### **Upcoming Accounting Pronouncement**

In June 2016, the Financial Accounting Standards Board (the FASB) issued Accounting Standards Update (ASU) No. 2016-13, *Measurement of Credit Losses on Financial Instruments*, which changes how companies measure credit losses on most financial instruments measured at amortized cost, such as loans, receivables and held-to-maturity debt securities. Rather than generally recognizing credit losses when it is probable that the loss has been incurred, the revised guidance requires companies to recognize an allowance for credit losses for the difference between the amortized cost basis of a financial instrument and the amount of amortized cost that LLU expects to collect over the instrument's contractual life. ASU No. 2016-13 is effective for fiscal periods beginning after December 15, 2022 and must be adopted as a cumulative effect adjustment to unrestricted net assets. LLU is still evaluating the effects of this ASU.

### Notes to Combined Financial Statements (continued)

#### 3. Credit Quality of Student Loans Receivable

The University issues uncollateralized loans to students based on financial need. Student loans are funded through federal government loan programs or institutional resources. Student loans receivable are carried at the amount of unpaid principal, less an estimate for doubtful accounts. Allowances for doubtful accounts are established based on prior collection experience. At June 30, 2023 and 2022, student loans represented 2.40% and 2.18%, respectively, of total assets.

Student loans consist of the following (amounts in thousands):

June 30					
	2023	2022			
\$	27,608 \$	25,255			
	21,496	19,930			
	49,104	45,185			
	(664)	(1,313)			
\$	48,440 \$	43,872			
	\$ 	\$ 27,608 \$ 21,496 49,104 (664)			

Funds advanced by the federal government of approximately \$26.5 million and \$25.3 million at June 30, 2023 and 2022, respectively, are ultimately refundable to the government and are classified as a component of other liabilities on the combined statements of financial position.

After a student is no longer enrolled in an institution of higher education and, after a grace period, interest is charged on student loans receivable and is recognized as it is charged. Student loans receivable through the loan programs are considered to be past due if a payment is not made within 30 days of the payment due date, at which time late charges are charged and recognized. The Federal Perkins Loan Program receivables may be assigned to the ED. Students may be granted a deferment, forbearance, or cancellation of their student loan receivable based on eligibility requirements defined by the ED.

The following amounts were past due under student loan programs (amounts in thousands):

	1-30 Days		<b>31–60 Days</b>		61–90 Day	91+ Days			Total		
June 30, 2023 June 30, 2022	<b>\$</b> \$	<b>16</b> 23		<b>9</b> 8	:	<b>40</b> 3	:	<b>5,468</b> 6,197	•	<b>5,533</b> 6,231	

### Notes to Combined Financial Statements (continued)

#### 4. Pledges Receivable, net

Pledges receivable, net, of estimated uncollectible amounts, are discounted to present value at rates of 0.37% to 4.31%, based on the pledged gift date.

Pledges receivable, net, are as follows (amounts in thousands):

	June 30			
		2023	2022	
Gross unconditional pledges receivable	\$	3,391 \$	3,839	
Less allowance for doubtful accounts		(393)	(548)	
Less unamortized discounts		(95)	(99)	
	\$	2,903 \$	3,192	
Unconditional promises expected to be collected in:				
Less than one year	\$	1,175 \$	1,545	
One to five years		1,728	1,647	
	\$	2,903 \$	3,192	

#### 5. Investments, Irrevocable Trusts, and Fair Value Measurements

Investments are pooled together when permitted by gift agreement and applicable government regulations. Pooled investments and allocation of income are accounted for using the unit market method. A portion of the assets held in pooled investments is held for others, with a corresponding liability recorded in the accompanying combined financial statements.

Investment strategies for certain investments include the use of margin and other forms of leverage, including taking short positions, swaps, futures, options, warrants, private placements, forward contracts, trade claims and credit default swaps, and real estate instruments, when deemed appropriate by the fund managers. Other strategies include macroanalysis, merger arbitrage, distressed securities, and special situations.

The University's policy is to recognize transfers in and transfers out of the pools at the end of the reporting period. This policy includes transfers in and transfers out of Level 1, Level 2, and Level 3. There were no transfers to or from levels during the periods presented.

## Notes to Combined Financial Statements (continued)

#### 5. Investments, Irrevocable Trusts, and Fair Value Measurements (continued)

Investments are measured at fair value on the combined statements of financial position. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in without donor restrictions revenue and support, unless the income or loss is restricted by donor or law.

U.S. GAAP establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

U.S. GAAP describes three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets or liabilities.
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis and recognized on the accompanying combined statements of financial position, as well as the general classification of such instruments pursuant to the valuation hierarchy. Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include equities, debt securities, and U.S. government securities. If quoted market prices are not available, then fair values are estimated using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows. Level 2 securities include debt securities on mortgage-backed corporate bonds and commercial real estate. Level 2 securities also include first trust deed (mortgage) loans. No allowance for credit losses was required to be recorded for June 30, 2023 or 2022. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the valuation hierarchy.

## Notes to Combined Financial Statements (continued)

#### 5. Investments, Irrevocable Trusts, and Fair Value Measurements (continued)

As part of the Level 3 securities valuation process, the Investment Management Committee, under the supervision of the University's Board of Trustees, determines the fair value measurement policies and procedures in consultation with the University's third-party investment advisors. These policies and procedures are reassessed periodically to determine whether the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on the current market conditions and other third-party information.

Securities accounted for at net asset value (NAV) include hedge funds, private equity investments, and real estate partnerships. NAV amounts provided by external investment managers are adjusted for receipts and disbursements of cash and securities subsequent to the most recently available NAV date.

The following presents information about the level in the fair value hierarchy for the University's assets and liabilities that are reported at fair value as of June 30, 2023 and 2022. For most financial assets and financial liabilities, the carrying amount equals fair value. The University has California Education Facilities Authority (CEFA) Revenue Bonds that are reported at an amortized cost of \$169.0 million and \$173.0 million as of June 30, 2023 and 2022, respectively, on the combined statements of financial position.

Investments in real estate outside of the pool are reported at cost, and those that were contributed are reported at their fair value at the date of the gift, adjusted for impairment if impairment exists. At June 30, 2023, the carrying value of such properties was \$35.3 million. The investments were not evaluated for impairment, since no impairment indicators were present and, as a result, no fair value was estimated.

Certain notes receivable in investments are reported at cost, including notes to affiliates.

## Notes to Combined Financial Statements (continued)

## 5. Investments, Irrevocable Trusts, and Fair Value Measurements (continued)

Investments and irrevocable trusts consist of the following (amounts in thousands):

	June 30, 2023									
		Level 1		Level 2		Level 3	NAV	Total		
Investments – redeemable securities										
Equity securities:

## Notes to Combined Financial Statements (continued)

#### 5. Investments, Irrevocable Trusts, and Fair Value Measurements (continued)

Investments managed by external advisors include investments in private equity and real estate. The majority of these investments are not readily marketable and are reported at fair value utilizing the most current information provided by the external advisor. In situations where the information provided by the external advisor is deemed not to be representative of fair value as of the measurement date, the University will utilize the supplemental information provided by the external advisor, along with any relevant data to measure the investment's fair value as of that date. Distributions from each fund will be received as the underlying investments of the funds are liquidated, estimated at June 30, 2023, to be over the next 5 to 20 years.

Fair value measurements of investments in certain entities that calculate NAV per share (or its equivalent) are as follows (amounts in thousands):

Fair Value at		$\mathbf{U}$	nfunded	Redemption	Redemption	
June	e 30, 2023	Con	nmitments	Frequency	<b>Notice Period</b>

# Notes to Combined Financial Statements (continued)

## 6. Property, Plant, and Equipment, Net

Property, plant, and equipment consist of the following (amounts in thousands):

	June 30					
		2022				
Land improvements	\$	42,024 \$	41,854			
Vehicles		1,888	1,767			
Equipment		137,005	138,317			
Artwork		_	7,500			
Buildings and improvements		518,770	517,331			
Cost of plant and equipment		699,687	706,769			
Less accumulated depreciation		(426,604)	(409,873)			
Net depreciable plant and equipment		273,083	296,896			
Land		37,534	33,308			
Construction-in-progress		8,302	3,852			
Property, plant and equipment, net	\$	318,919 \$	334,056			

The University has various construction-in-progress projects open as of June 30, 2023 and 2022 for the construction of facilities and other improvements. There were no projects with capitalized interest for the years ended June 30, 2023 and 2022.

### 7. Net Investment in Direct Financing Lease

Net investment in direct financing lease consists of the following (amounts in thousands):

	June 30				
		2023	2022		
Gross investment Less unearned income and deferred rent	\$	6,035 \$ (4,710)	6,035 (4,186)		
Net investment in direct financing lease	\$	1,325 \$	1,849		
Estimated unguaranteed residual value	\$	736 \$	735		

## Notes to Combined Financial Statements (continued)

#### 7. Net Investment in Direct Financing Lease (continued)

The estimated unguaranteed residual value represents the estimated amount to be received at lease termination from the disposition or re-lease of equipment under leases not classified as operating leases and in which the University has an ongoing economic interest, discounted using the internal rate of return related to each specific direct financing lease. Actual results may differ from estimated amounts.

As a condition of the financing arrangements, customers are required to maintain insurance on the underlying collateral. These credit policies and procedures enable the University to monitor and control its risks and exposures on the lease receivables. At June 30, 2023 and 2022, there were no nonaccrual leases.

#### 8. Trusts

#### **Revocable Trust Agreements**

At June 30, 2023 and 2022, the University held, as trustee, a total of nine revocable trust agreements, of which the University has a significant beneficial interest. These trust agreements had total assets amounting to \$3.0 million and \$2.9 million in 2023 and 2022, respectively. Revocable assets totaling \$0 and \$570 thousand became irrevocable in 2023 and 2022, respectively. The University's policy is to recognize as contributions revenue the trust gift when the agreement becomes irrevocable.

#### **Other Unrecorded Trusts**

The University has a beneficial or remainder interest in a number of irrevocable and revocable trusts, life income agreements, and estates held by various Conferences of the Seventh-day Adventist Church or third-party trustees, such as banks. LLU does not have access to the number or value of these trusts, so they will not be reflected in the combined financial statements until such gifts are received by the University.

## Notes to Combined Financial Statements (continued)

#### 9. Debt (continued)

Aggregate principal maturities of debt for the years ending June 30 are as follows (amounts in thousands):

2024	\$ 5,276
2025	5,507
2026	5,746
2027	6,004
2028	6,276
2029 and thereafter	181,273
	\$ 210,082

Interest related to the debt was \$10.3 million and \$9.3 million for the years ended June 30, 2023 and 2022, respectively.

The CEFA Act, as a public instrumentality of the state of California pursuant to Chapter 2 of Part 59 of Division 10 of Title 3 of the Education Code of the State of California, authorized the University to issue the CEFA Revenue Bonds Series 2017A and 2017B on March 1, 2017.

The University has obtained CEFA Revenue Bonds Series 2017A in the amount of \$134.9 million, payable in 30 years beginning April 1, 2017 until April 1, 2047, at a fixed rate of 5.00% per annum and the CEFA Revenue Bond Series 2017B in the amount of \$43.4 million payable, in 15 years beginning April 1, 2018 until April 1, 2033, at a rate starting at 1.97% in the first year to a maximum of 4.75% at maturity. The outstanding loan balance is \$157.7 million and \$161.3 million as of June 30, 2023 and 2022, respectively. In 2022 and 2023, the University was in compliance with all financial covenants under the CEFA loan agreement.

The University has a secured commercial loan from a financial institution at a fixed rate of 4.50%, payable in 15 years beginning February 24, 2015 until February 17, 2030. The balance of the loan is \$10.6 million and \$11.9 million as of June 30, 2023 and 2022, respectively. The University was in compliance with the financial covenants in 2023 and 2022.

The University has two secured commercial loans from a financial institution, which were executed on February 7, 2017, at a fixed rate of 4.25% for both loans. The loans are payable in 15 years beginning on February 7, 2018 and maturing on February 7, 2032. The loan balances as of June 30, 2023 and 2022 are \$885 thousand and \$968 thousand, respectively.

## Notes to Combined Financial Statements (continued)

#### 9. Debt (continued)

The University has a secured commercial loan from a financial institution, which was executed on January 2, 2020, at a fixed rate of 4.50%. The loan is payable in 15 years and will mature on January 15, 2035. The loan balances as of June 30, 2023 and 2022 are \$1.16 million and \$1.20 million, respectively.

Secured loans from private individuals were also obtained by the University at a fixed interest rate of 7.50%, payable in 25 years. The loans will mature in 2033 or upon the death of the private individuals. The loan balance is \$1.2 million and \$1.3 million as of June 30, 2023 and 2022, respectively.

The University has a \$20.0 million unsecured line of credit with a financial institution, with interest based on the Secured Overnight Financing Rate plus 1.61% for the years ended June 30, 2023 and 2022. The interest rate was approximately 6.7% and 3.0% at June 30, 2023 and 2022, respectively. The loan balance was \$20.0 million as of June 30, 2023 and 2022. As part of the unsecured line of credit agreement, the University is required to meet certain financial and nonfinancial covenants. The University was in compliance with all such financial covenants in 2023 and 2022. The line of credit has an availability period through March 2, 2024.

On July 23, 2018, the University obtained a \$40.0 million line of credit from a financial institution, which had loan balances of \$18.5 million as of June 30, 2023 and 2022. Interest was based on SOFR plus 0.95% and LIBOR plus .90% as of June 30, 2023 and 2022, respectively. Interest was 6.1% and 1.9% as of June 30, 2023 and 2022, respectively. The line of credit has an availability period through July 15, 2024.

A note to a bank at 1.00% is a New Market Tax Credit loan with a balance of \$8.1 million in 2022. This note qualified as a loan-income community investment under Section 45D of the IRC. The note was settled by exchanging the receivable from the bank due to LLU for the debt due from LLUH-SB. The bank forgave \$2.4 million of the debt which is recognized in the combined statement of activities under sales and service income. The loan provides tax credits to investors under this program, which are indemnified by the University. LLUH-SB must operate a qualifying business in the financed facilities, meet certain additional operating covenants, and submit annual reports to lenders. Additional borrowing, including the loan from affiliate, may not exceed \$36.6 million as of June 30, 2022. The loans are unsecured. LLUH-SB was in compliance with the financial covenants in 2023 and 2022.

# Notes to Combined Financial Statements (continued)

#### 9. Debt (continued)

#### **Prepayments**

The University may, at any time, prepay all or any part of the base loan payments due on the CEFA bonds. All such prepayments shall be deposited in the optional redemption account within the bond fund and credited against the base loan payments in the order of their due date or at the election of the University in accordance with the indenture. Notwithstanding any such prepayment, the University shall not be relieved of this obligation under the agreement until all of the bonds have been fully paid and retired.

#### **Optional Redemption Revenue Bonds Series 2017A**

The Series 2017A bonds, maturing on or after April 1, 2028, are subject to optional redemption by the University prior to their stated maturities pursuant to the agreement at the principal amount thereof plus accrued interest, if any, to the date of redemption.

#### **Mandatory Redemption From Sinking Fund Payments**

The Series 2017A bonds, maturing on April 1, 2042, amounting to \$38.6 million, are subject to redemption, in part or by lot, from mandatory sinking fund payments pursuant to the indenture, on each April 1, from and after April 1, 2038, at the principal amount thereof plus accrued interest, if any, to the date of redemption (without premium).

The Series 2017A bonds, maturing on April 1, 2047, amounting to \$49.3 million, are subject to redemption, in part or by lot, from mandatory sinking fund payments pursuant to the indenture, on each April 1, from and after April 1, 2043, at the principal amount thereof plus accrued interest, if any, to the date of redemption (without premium).

#### **Optional Redemption Revenue Bonds Series 2017B**

The Series 2017B bonds, maturing on April 1, 2033, in the amount of \$19.6 million, are subject to optional redemption prior to their stated maturity pursuant to the agreement at the principal amount thereof plus accrued interest, if any, to the date of redemption.

## Notes to Combined Financial Statements (continued)

#### 9. Debt (continued)

#### **Mandatory Redemption From Sinking Fund Payments**

The Series 2017B bonds, maturing on April 1, 2033, in the amount of \$19.6 million, are subject to redemption, in part or by lot, from mandatory sinking fund payments pursuant to the indenture, on each April 1, from and after April 1, 2028, at the principal amount thereof plus accrued interest, if any, to the date of redemption (without premium).

### 10. Deferred Compensation

The University maintains a nonqualified deferred compensation plan for the benefit of certain doctors associated with various medical groups. The plan is an unsecured promise to pay income in the future. As of June 30, 2023 and 2022, the plan's liabilities totaled \$378 thousand and \$356 thousand, respectively. The assets are included in inventories, prepaid expenses, and other assets and the liabilities are included in accounts payable and accrued expenses on the accompanying combined statements of financial position.

#### 11. Net Assets With Donor Restrictions

Net assets with donor restrictions are available for the following purposes (amounts in thousands):

	June 30				
	2023			2022	
Restricted for specific purposes	\$	217,335	\$	188,122	
Student loans and scholarships Endowment		79,487 411,361		79,049 383,272	
Annuity and life income agreements		29,250		27,820	
	\$	737,433	\$	678,263	

#### 12. Endowment

The net assets of the University include permanent endowment and funds functioning as endowment (collectively, the endowment). Permanent endowment funds are subject to the restrictions of gift instruments requiring that the principal be invested and the income only be utilized as provided under California UPMIFA. While certain funds have been established by the Board of Trustees to function as endowment, any portion of such funds may be expended.

within one year	\$	713,048	\$	739,474	

# Notes to Combined Financial Statements (continued)

#### 14. Revenue From Contracts

Revenue from contracts with customers comprises revenue from lessees for building space and for common area maintenance (CAM). For the purposes of reporting on revenue from contracts with customers under U.S. GAAP, LLUH-SB refers to customers as lessees. Transaction prices are based on the executed lease agreement. Revenue is recognized evenly over the term specified in the building lease agreement. The performance obligation is to provide the building space in return for payment from the lessee. The CAM fee revenue is recorded in sales and service income on the combined statements of financial position.

### 15. Functional Expenses

Each functional classification displays all expenses related to the underlying operations by natural classification. The University tracks costs by department and division and, therefore, allocated costs attributable to providing student services, research, auxiliary activities and support services accordingly. The methodology for research expenditures was updated for 2023 to include funded research expenditures and research administrative costs; 2022 has been restated accordingly.

Expenses by function were as follows for the year ended June 30, 2023 (amounts in thousands):

	Student		•		uxiliary	Support	<b>7</b> 5. 4. 1.
	 Services	K	esearch	A	ctivities	Services	Total

## Notes to Combined Financial Statements (continued)

### 16. Related-Party Transactions

The University receives capital and operating appropriations, as well as various other special appropriations, from the General Conference of Seventh-day Adventists (the GC). Revenue received from the GC in gifts and subsidies without donor restrictions for the years ended June 30, 2023 and 2022 was \$7.6 million and \$7.4 million, respectively.

Revenue transactions occurring between the University and various affiliated organizations consist of various service-related items, including pharmacy and clinical services, audiovisual services, cafeteria, and rent, and are recorded under sales and service income, and clinic and auxiliary income on the combined statements of activities. These are summarized as follows (amounts in thousands):

	Year Ended June 30					
		2023		2022		
LLUMC and affiliates	\$	23,687	\$	23,598		
Loma Linda University Shared Services (LLUSS)		6,653		5,044		
Loma Linda University Health Care (LLUHC)		1,413		1,310		
Loma Linda Inland Empire Consortium for Healthcare						
Education (LLIECHE)		880		683		
LLUH		94		5		
Related faculty medical groups		545		252		
	\$	33,272	\$	30,892		

## Notes to Combined Financial Statements (continued)

#### **16.** Related-Party Transactions (continued)

Expenses to LLUMC consist primarily of various service-related items, including pharmacy and clinical services, audiovisual services, cafeteria, and rent. Expenses paid to LLUHC consist primarily of medical director fees and rent. Expenses paid to LLUH are primarily comprised of management fees and legal fees. Expenses paid to LLUSS are comprised of shared services provided to the core entities within LLUH, including human resources management, payroll, financial services, supply chain, advancement, security, telecommunications, construction, dispatch, mail services, and grants management, as well as other support services. In total, approximately 50 departments are supported by LLUSS. Expenses paid to LLIECHE include purchased labor for medical residents. Expenses paid to related faculty medical groups include medical director fees, resident director fees, and fees paid to service chiefs. Expense transactions occurring between LLU and various affiliated organizations are summarized as follows (amounts in thousands):

	Year Ended June 30						
		2023		2022			
LLUMC and affiliates	\$	5,903	\$	4,016			
LLUSS		29,972		25,262			
LLUHC		164		381

LLUH		3,491		2,904			
Related faculty medical groups		13,242		11,009			
	\$	54,350	\$	45,079			

#### 17. Retirement Plans

#### **Defined Benefit Plans**

The University participates in a noncontributory multiple-employer defined benefit pension plan known as the Seventh-day Adventist Retirement Plan for the North America Division. This plan, which covers substantially all employees of the University, is administered by the GC in Silver Spring, Maryland, and is exempt from the Employee Retirement Income Security Act of 1974 (ERISA) as a multiple-employer plan of a church-related agency.

## Notes to Combined Financial Statements (continued)

#### 17. Retirement Plans (continued)

The University also participates in a noncontributory multiple-employer defined benefit health plan known as the Health Care Assistance Plan for Participants in the Seventh-day Adventist Retirement Plan of the North American Division. This plan, which covers substantially all employees of the University, is administered by the GC in Silver Spring, Maryland, and is exempt from ERISA as a multiple-employer plan of a church-related agency.

The University contributed \$3.3 million and \$3.4 million to these plans (for retiree pension and retiree health care benefits) for the years ended June 30, 2023 and 2022, respectively.

These plans are defined by the FASB as multiple-employer plans. As such, it is not required, nor is it possible, to determine the actuarial present value of accumulated benefits or plan net assets for employees of the University apart from other plan participants.

The North American Division Committee voted to freeze the accrual of service credit in these plans, effective December 31, 1999, except for employees who choose the career completion option, and to start a new defined contribution plan, effective January 1, 2000. The University continues to make contributions (at a reduced rate) to the frozen plans after December 31, 1999. Certain employees will continue to be eligible for future benefits under these plans.

#### **Defined Contribution Plan**

The University participates in a multiple-employer defined contribution retirement plan known as The Adventist Retirement Plan (ARP). This plan, which covers substantially all employees of the University, is administered by the GC in Silver Spring, Maryland, and is exempt from ERISA as a multiple-employer plan of a church-related agency. The University makes a basic contribution to this plan for covered employees at a stated percentage of the employee's wage. The University also makes matching contributions at a stated percentage of additional contributions made by covered employees. Investment management of the accumulated contributions designated for each employee is provided under an agreement between the GC and Variable Annuity Life Insurance Company. The University contributed \$3.0 million and \$2.4 million for the years ended June 30, 2023 and 2022, respectively.

## Notes to Combined Financial Statements (continued)

#### 17. Retirement Plans (continued)

Effective January 1, 2021, the University transitioned from ARP to the Adventist Healthcare Retirement Plan (AHRP), which is a common retirement plan platform for all LLUH entities. This transition not only aligns retirement plan vendors, but also aligns retirement plan benefits within LLUH. The current AHRP plan design includes a 3% annual basic employer contribution, as well as a bi-weekly employer matching contribution. Under this plan, the University employer matching benefit changed to 50% of the first 6% of an employee's contribution (3% maximum matching contribution). Although AHRP currently has a three-year cliff vesting schedule, current University employees are immediately vested for employer contributions under AHRP, regardless of their employment duration at the time of transition.

Faculty members do not participate in the retirement plan that is administered by the GC, but participate in the Teachers Insurance and Annuity Association and the College Retirement Equities Fund. Under this defined contribution plan, the University and plan participants make annual payments to purchase individual annuities, fixed or variable, equivalent to retirement benefits earned. Vesting provisions are full and immediate. Benefits commence upon retirement, and preretirement survivor death benefits are also provided. Charges to funds without donor restrictions for the University's share of costs were \$5.2 million and \$4.5 million during the years ended June 30, 2023 and 2022, respectively.

#### 18. Self-Insurance Plans

The University is covered by programs of self-insurance administered by the Risk Management Department of LLUH (Risk Management) for employee and student health care, auto physical damage, unemployment benefits, and workers' compensation benefits. For the employee health care program, the University's risk is pooled with LLUMC, LLUH, LLUSS, Loma Linda University Health Education Consortium (LLUHEC) (which provides graduate medical education), LLUHC and Loma Linda University Faculty Medical Group.

## Notes to Combined Financial Statements (continued)

#### **18. Self-Insurance Plans (continued)**

The University self-insures for workers' compensation and unemployment claims, covering benefits to employees as required under applicable federal and state laws. The University maintains insurance to cover workers' compensation claims in excess of \$300 thousand. The gross accrual for workers' compensation claims totaled \$1.63 million and \$1.74 million at June 30, 2023 and 2022, respectively.

The University is also covered by the LLUH Professional and General Liability Trust administered by Risk Management (the Trust) for professional and general liability claims. The Trust is a pooling of risk among the participants, which includes all of the core organizations described in Note 1. The University is required to deposit contributions with the Trust annually to fund the independent actuarial projections of future liabilities for the professional and general liability self-insurance program. In 2023 and 2022, the University deposited contributions of \$502 thousand and \$435 thousand, respectively, to fund its share of actuarial projections of future liabilities (included in general expenses). The funds paid to Risk Management for general and professional liability insurance coverage are not refundable.

For professional and general liability exposures, the University is covered up to \$6.0 million per claim by the Trust's assets. Risk Management has purchased additional insurance through University Insurance Company of Vermont (UICV), which is wholly owned by LLUH, to cover claim limits of \$2.0 million in excess of \$6.0 million. UICV also issues a policy covering \$20.0 million in excess of \$8.0 million, which is 75% reinsured through ACE American Insurance Company (Chubb). Risk Management has purchased additional insurance from commercial insurance carriers to cover claims in excess of \$28.0 million and up to \$228.0 million per claim and in the aggregate.

In 2023 and 2022, the University deposited contributions of \$29.9 million and \$29.8 million, respectively, to fund its share of actuarial projections of future liabilities for all self-insurance plans.

## Notes to Combined Financial Statements (continued)

#### 19. Conditional Pledges

On August 1, 1995, the United States Government conditionally deeded 6.5 acres of land, including buildings from the former Norton Air Force Base, to LLU for the sum of one dollar. This property and facility are restricted for educational purposes and are subject to certain operational conditions and inspections by the government for a period of 30 years. The University will record the contribution at its fair value at the end of the 30-year period when all conditions to the transfer are met. The property and the facility are currently being used by the Social Action Community Health System clinic.

## 20. Commitments and Contingencies

There exists an unfunded commitment to draw down payments of \$35.1 million over twelve months for investments private equity and other investments (refer to Note 5).

The University has guaranteed to the state of California the payment of all workers' compensation liabilities of LLUMC, LLUBMC, LLUCH, LLUSS and Faculty Practice Groups. For 2023 and 2022, the total current funding of all these groups exceeds the estimated future liability.

The University is involved in legal actions in the normal course of business, some of which seek monetary damages, including claims for punitive damages, which are not covered by insurance. These actions, when finally concluded and determined, will not, in the opinion of management based in part on consultation with the University's legal counsel, have a material adverse effect on the University's combined financial position, change in net assets, or cash flows.

#### 21. Leases

Operating and finance lease liabilities are recognized at lease commencement based on the present value of the fixed lease payments using the University's incremental borrowing rate (IBR) at commencement. The University has elected to utilize the risk-free rate instead of the IBR as permitted by the standard for nonpublic entities. Related operating and finance lease ROU (right-of-use) assets are recognized based on the initial present value of the fixed lease payments, reduced by cash payments received from the landlords as lease incentives, plus any prepaid rent and other direct costs from executing the leases. Amortization of operating lease ROU assets is recorded as part of rent expense in facility costs, and amortization of finance lease assets is recorded as part of depreciation and amortization on the combined statements of activities.

# Notes to Combined Financial Statements (continued)

#### 21. Leases (continued)

The financing component of the amortization of the finance lease liabilities is recorded within interest expense on the combined statements of activities. ROU assets are tested for impairment in the same manner as long-lived assets. Leases with an initial term of 12 months or less are not recorded on the combined statements of financial position; the University recognizes lease expense for these leases on a straight-line basis over the lease term. Variable lease payments are recognized as lease expense as they are incurred. Options to extend are recognized as part of the ROU assets and liabilities based on management's intent to exercise. The University determined that a contract contains a lease when it conveys the right to control an identified asset for a period of time in exchange for consideration.

ROU operating and finance lease assets and liabilities are noted separately on the combined statements of financial position. Finance ROU assets are also stated separately on the combined statements of financial position, whereas previously they were recorded with property and equipment.

ROU assets and lease liabilities as of June 30, 2023 consist of the following (amounts in thousands):

Assets	
Operating lease assets	\$ 15,316
Finance lease assets	700
Total lease assets	\$ 16,016
Liabilities Operating lease liabilities Finance lease liabilities	\$ 15,454 592
Total lease liabilities	\$ 16,046

# Notes to Combined Financial Statements (continued)

## 21. Leases (continued)

Total finance and operating lease costs for the twelve months ended June 30, 2023 were as follows (amounts in thousands):

Finance lease costs		
Amortization of ROU assets	\$	442
Interest on lease liabilities		16
Total finance lease costs	\$	458
	<del></del>	
Operating lease cost	\$	2,262
Variable lease cost		_
Total operating lease costs	\$	2,262
•		

Future lease payments as of June 30, 2023 are as follows (amounts in thousands):

	-	Operating Leases		
2024	\$	2,159	\$ 416	ó
2025		1,923	183	3
2026		1,233	2	2
2027		1,025	_	-
2028		928	_	-
Thereafter		9,388	_	-
Total		16,656	601	
Less: Imputed interest		(1,202)	(9	))
Present value of net lease payments	\$	15,454	\$ 592	<u>?</u>

# Notes to Combined Financial Statements (continued)

#### 21. Leases (continued)

The following table includes supplemental lease information as of June 30, 2023:

Weighted average remaining lease term as of June 30, 2023 (in years):	
Operating leases	13.22
Finance leases	1.43
Weight described in the second state of Least 20, 2022	
Weighted average discount rate as of June 30, 2023:	
Operating leases	1.04%
Finance leases	2.31%

Most operating leases consist of rental of buildings and space occupied by LLU, the majority of which are with other LLUH related parties. Intracompany leases among the University's divisions are recorded and then eliminated in the combined statements of financial position. The finance leases are comprised of equipment used for the dental school and printing services.

LLUH-SB leases space to a community health clinic under a noncancelable operating lease with an initial rate of \$2.80 per square foot. The lease rate increases by fixed and indexed amounts over an initial term of 20 years, and the lease agreement includes two options to extend for an additional five years.

Future minimum cash rentals to be collected from leases with an unrelated tenant for the years ending June 30 are as follows (amounts in thousands):

2024	\$ 3,890
2025	3,890
2026	3,890
2027	3,890
2028	3,890
Thereafter	30,997
	\$ 50,447
	•

## Notes to Combined Financial Statements (continued)

#### 21. Leases (continued)

In addition to the minimum lease payments above, the University receives payments related to operating expenses necessary to operate the building, including maintenance, property taxes, and insurance. These amounts are not included as minimum lease payments, as the payment due is based on actual expenses incurred by the organization. During 2023, \$1.6 million was recorded as revenue for CAM from the nonaffiliated tenant, which was included within rental income on the combined statement of activities.

#### 22. U.S. Department of Education Title IV Supplemental Disclosure

The U.S. Department of Education has issued regulations regarding additional disclosures deemed necessary to calculate certain ratios for determining sufficient financial responsibility under Title IV regulations. The financial information as of June 30, 2023 is as follows (amounts in thousands):

	 2023	2022	
Pre-implementation debt:			
Ending balance of last combined financial statements	\$ 219,565 \$	232,870	
Post-implementation line of credit	(38,500)	(38,500)	
Post-implementation debt	(11,265)	(11,739)	
Balance pre-implementation debt	\$ 169,800 \$	182,631	

#### 23. Financially Interrelated Foundation

During the year ended June 30, 2020, LLU contributed \$15.0 million to a financially interrelated foundation which has as its sole and specific purpose to provide tuition support for a cadre of students in each entering class of Loma Linda University School of Medicine; no variance power was granted to the Foundation.

LLU does not control the Foundation and, as such, does not consolidate it in its combined financial statements. However, LLU and the Foundation are financially interrelated organizations, as defined under FASB Accounting Standards Codification 958, *Not-for-Profit Entities*. As the specified beneficiary, LLU reports its interest in the net assets of the Foundation in its combined statements of financial position. LLU also adjusts its interest for its share of the change in the net assets of the Foundation, which is shown as a component of revenue and support on the combined statements of activities.

## Notes to Combined Financial Statements (continued)

#### 23. Financially Interrelated Foundation (continued)

During the year ended June 30, 2023, LLU recognized \$1.4 million, representing its share of the change in the net assets of the Foundation and an interest in the net assets of the Foundation of \$36.7 million on the combined statement of financial position at June 30, 2023, of which \$21.9 million is considered to be an asset with donor restrictions. During the year ended June 30, 2023, the Foundation distributed \$1.0 million to a select group of students for their tuition in the Loma Linda University School of Medicine.

#### 24. COVID-19 Pandemic and Impact of CARES Act

The Coronavirus Aid, Relief, and Economic Security (CARES) Act was signed into law on March 27, 2020, and included, among other provisions, budgetary relief to higher educational institutions. The CARES Act Higher Education Emergency Relief Funds (HEERF) provided funding from ED to higher educational institutions to support financial aid grants to students and lost revenue attributable to COVID-19. HEERF is not required to be repaid, provided that the University attests to and complies with certain terms and conditions. The University recognized revenues of \$0 and \$1.7 million for the student assistance portion and \$784 thousand and \$3.4 million for the institutional portion for the years ended June 30, 2023 and 2022, respectively. These funds are included on the combined statements of activities for the years ended June 30, 2023 and 2022, respectively, as sponsored support revenue. The University also recognized \$0 and \$1.7 million as a general expense for the distribution of the student assistance funds received in the fiscal years ended June 30, 2023 and 2022, respectively.

On May 25, 2021, the University received an award of \$960 thousand from the Department of Health and Human Services (HHS) to support Mental and Behavioral Health education as part of the American Rescue Act of 2021. Sponsored project revenue of \$579 thousand has been recognized in fiscal year 2023.

The University will continue to monitor compliance with the terms and conditions of all federal awards and the impact of the pandemic on revenues and expenses. If it is determined that the University is unable to attest to or comply with current or future terms and conditions, the University's ability to retain some or all of the distribution received may be impacted. The Federal COVID-19 Public Health Emergency declaration ended on May 11, 2023.

# Notes to Combined Financial Statements (continued)

### 25. Subsequent Events

Subsequent events are events or transactions that occur after the combined statement of financial position date, but before the combined financial statements are available to be issued. The University recognizes in the combined financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the combined statement of financial position, including the estimates inherent in the process of preparing the combined financial statements. The University's combined financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the combined statement of financial position, but arose after the combined statement of financial position date and before the combined financial statements are available to be issued.

Subsequent to June 30, 2023, the University terminated a land lease with an affiliate of LLUMC and immediately sold the land and a medical office building to an unrelated third party. The proceeds of the sale were allocated to the University for the value of the land and to the LLUMC affiliate for the value of the building and land improvements.

The University has evaluated subsequent events through November 2, 2023, which is the date the accompanying combined financial statements are available for issuance.

#### **EY** | Building a better working world

EY exists to build a better working world, helping to create long-term value for clients, people and society and build trust in the capital markets.

Enabled by data and technology, diverse EY teams in over 150 countries provide trust through assurance and help clients grow, transform and operate.

Working across assurance, consulting, law, strategy, tax and transactions, EY teams ask better questions to find new answers for the complex issues facing our world today.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. Information about how EY collects and uses personal data and a description of the rights individuals have under data protection legislation are available via ey.com/privacy. EY member firms do not practice law where prohibited by local laws. For more information about our organization, please visit ey.com.

Ernst & Young LLP is a client-serving member firm of Ernst & Young Global Limited operating in the US.
