Gratitude from Recent Scholarship Recipients

*"As I look back on the past four years I am filled with joy, gratitude, and nostalgia. I am so grateful for the support in finances that I received. The *Paying It Forward* Scholarship has been one of the largest parts of this support. In addition, I have received guidance and support, professionally and personally that has helped shape me into the soon-to-be physician that I am today."*

-Madeline Castella-Chin '23

*"As my limited financial support dwindled at the end of last year, I had no idea how God would provide for my education for my third year of medical school. As an international student, I was having a very difficult time finding a solution to my financial needs. When I was selected as a *Paying It Forward* Scholarship recipient, I was again reminded of God's unfailing love and watch-care over the large and small aspects of my life."*
